

Bastien Gamboa – Preclinical Biostatistician

Me, Myself and I

www.alastat.com

1987-11-12

bastien.gamboa@
yahoo.fr

Thinking every day and facing without answers questions make me fully happy in Pharmaceutical Research

My background in biology and ecology enable me to talk easily with scientists
It helps me as well to popularize statistical concepts and understand the biologists state of mind

Summary

Preclinical Biostatistician	6+ years
Clinical Biostatistician	2+ years
Ecological Biostatistician	1+ years

Advanced R user
Passion for Science
6 scientific papers co-author
Master degree in Biostatistics (Msc)
Maîtrise in Ecology

Skills

Statistic

Technologies

Languages

Senior Preclinical Biostatistician

GSK Vaccines through B&D LS Rixensart, Belgium
2020-03 — Now

- Assay development (design, non-linear fitting, LSCA, Precision, CR, Linearity, joint-report)
- R package to automatize and homogeneize the assay development analysis workflow
- Simulation on HPC to compare algorithm for non-linear fitting
- Shiny app to explore cytokine data
- Microbiome analysis (AERIS COPD study)

Assay dvpt
R package / Shiny apps
Simulations on HPC

Senior Preclinical Biostatistician

SERVIER
Suresnes, France
2018-04 — 2019-04 (1 year)

- Managing preclinical projects with project manager (from protocol design to study report)
- Training and statistics popularization
- Therapeutic areas: diabetes, heart failure, Alzheimer's disease

Systemic drugs
Project centricity

Preclinical Biostatistician

GALDERMA
Antibes, France
2013-04 — 2018-03 (5 years)

- Statistic analysis of the preclinical studies (design, protocol, sample size estimation, statistical analyses, study report)
- Studies from 'target to hit' to 'phase IV', most of them was 'lead optimization'
- Identification, creation and challenging of new normalization and analysis statistical method
- Work with different data formats: physical parameters (TEWL, weight), Immunohistochemistry (epidermis thickness, number of cells), lipidomic (MSMS), proteomic (Elisa, MS), transcriptomic (Arrays, Sequencing)...
- Therapeutic areas: skin diseases (cancer, psoriasis, acne, atopic dermatitis...)

Research Dpt key resource
Apps for routine studies
Statistic popularization

Education

Msc (ranked as 'good') – 2011
Maîtrise 'Ecology' – 2010
Licence BOPE – 2009
DEUG Biology – 2007
Bachelor's degree – 2005

Hobbies

Nature	Books
Movies	Rugby (8 years)
Computer	Tennis (7 years)
